

Assalamu Alaikum

As part of our planning, we need to get a good idea of what support you and your children would need. **Please note we have not been directed to close at this stage. We are just getting plans in place should this occur.**

*Our school has the ability to provide online learning through Google Classroom, Education Perfect and several other platforms. However, we need to collect information on the number of families who do not have access to devices and or internet access at home.

*Attached is a parent survey link to collect information about the main barriers for families accessing online learning. We hope that you can take a moment to fill this in for us as we try to make the best of a difficult time. We have also provided a section for you to ask questions and voice any concerns.

Thank you for your ongoing support.

JazakumAllah Khairan
